28ft Drop Frame Trailer (built in 2018 or
28ft Drop Frame Trailer (built in 2018 or later)

This is a FedEx Global Brand Management approved vehicle decal application schematic. Please note that although we take care to insure that an accurate schematic is produced, actual vehicle production of make and models may differ from country to country. For this reason we ask that you carefully check the information provided in your schematic with the actual vehicle before placing a decal order.

1. This schematic is to be used for this particular vehicle and if for a GSP, LNP, LFP, CSP or similar, this particular company only. If there is another vehicle with the same specifications, but for another country/company, a new schematic must be created.

2. Tape all decals in place to insure that the decals will fit your vehicle as instructed in this schematic. If the decals do not fit, please contact the vendor and/or the design group with whom you originally placed your request.

3. If all of the decals do fit, but need to have the placement measurements adjusted, please note those adjustments and contact the design group before applying the decals. Spacing between decals may be adjusted +/- 10%. If an adjustment of more than 10% is needed please have this approved by FedEx GBM or the FedEx Regional Marketing team.

4. If you have any questions concerning the application of the decals, please contact the design group that produced the decals. We want to insure that your vehicle meets the branding guidelines established by FedEx GBM.

**UNIQUE TO EACH TRAILER AND NOT SUPPLIED WITH EACH KIT**

Asset Numbers (order from warehouse)

- (for front) 6” - vertical: 3076X, 2
- (for rear) 6” - horizontal: 3076X, 1
- (inside trailer) 3” - horizontal: 3073X, 2

Barcode (order replacements from Metalphoto of Cincinnati)

- BARCODE, 3
28ft Drop Frame Trailer (built in 2018 or later)
Left Side

**STEP 1.** Position the wordmark (30019-OR) 3” below the top rub rail and 10” from the front rail.

**STEP 2.** Position the descriptor (30119N) 7” below the wordmark and align with the “E” in the wordmark.

**STEP 3.** Position the ® mark 1.25” to the right of the wordmark and align with the bottom of the “x” as shown.

**STEP 4.** Position the URL (30309N) 10” from the rear rail and align with the “x” in the wordmark.

**STEP 5.** Position the phone number (30206N) 5” below the URL and 10” from the rear rail.

**STEP 6.** Position the crank direction decal (10259) as shown.

**STEP 7.** Position the lugnut torque decal (20304S) as shown.

**STEP 8.** Position the tire pressure decal (20153S) slightly above the lugnut torque decal.

Tape all decals in place to insure that the decals will fit your vehicle as instructed in this schematic. If the decals do not fit, please contact the vendor and/or the design group with whom you originally placed your request.
STEP 1. Position the wordmark (30019-OR) 3" below the top rub rail and 10" from the rear rail.

STEP 2. Position the descriptor (30119N) 7" below the wordmark and align with the “E” in the wordmark.

STEP 3. Position the ® mark 1.25" to the right of the wordmark and align with the bottom of the “x” as shown.

STEP 4. Position the URL (30309N) 10" from the rear rail and align with the “x” in the wordmark.

STEP 5. Position the phone number (30206N) 5" below the URL and 10" from the rear rail.

STEP 6. Position the lugnut torque decal (20304S) as shown.

STEP 7. Position the tire pressure decal (20153S) slightly above the lugnut torque decal.

Tape all decals in place to insure that the decals will fit your vehicle as instructed in this schematic. If the decals do not fit, please contact the vendor and/or the design group with whom you originally placed your request.
28ft Drop Frame Trailer (built in 2018 or later)

Front

STEP 1. Center the wordmark (30004-OR) horizontally on the front and position 3" below the top rail.

STEP 2. Position the descriptor (30105N) 2.75" below the wordmark and align with the “E” in the wordmark.

STEP 3. Position the ® mark 1.25” to the right of, and align with the bottom of the “x” as shown.

STEP 4. Center the asset number (3076X) on the radius and position 8" below the top rail.

STEP 5. Center the king pin decal horizontally on the middle post of the recessed front.

Rear

STEP 1. Center the wordmark (30004-OR) horizontally and slightly above the seam between the 3rd and 4th panel down from the top of the door. Position the wordmark where there is a minimum of 1” decal above or below a panel seam.

STEP 2. Position the descriptor (30105N) approximately 2.75” below the wordmark and adjust to prevent a panel seam in the descriptor decal and align with the “E” in the wordmark.

STEP 3. Position the ® mark 1.25” to the right of, and align with the bottom of the “x” as shown.

STEP 4. Position the URL (30319N) slightly below the seam between the 4th and 5th panel from the bottom of the door and adjust to prevent door panel seam in the URL decal and align with the “E” in the wordmark.

STEP 5. Position the phone number (30219N) slightly below the seam between the 3rd and 4th panel from the bottom of the door and align with the “E” in the wordmark.

STEP 6. Center the asset number (3076X) vertically on the fourth panel up from the bottom of the door and align with the “F” in the wordmark.

STEP 7. The barcode, brake system, and air line decal should be positioned as shown.
STEP 1. Position the “Ground” descriptor (30405N) 60” above the deck hinge and 43” from the rear toward the front of the trailer.

STEP 2. Center the unit number (3073X) horizontally under the descriptor and position slightly below the descriptor.

STEP 3. Center the barcode horizontally under the unit number and position slightly below the unit number. (Only used on the left side as you enter the rear of the trailer.)

DECALS SHOULD BE PLACED ON BOTH THE RIGHT AND LEFT SIDES OF THE TRAILER INTERIOR.

Tape all decals in place to insure that the decals will fit your vehicle as instructed in this schematic. If the decals do not fit, please contact the vendor and/or the design group with whom you originally placed your request.
